Founded in 2019, BRADE Petroleum and Energy Services Limited (PES) is a subsidiary of BRADE Group.

BRADE PES is striving to be a world class multi-disciplinary petroleum and energy services company, our business activities involve all the sectors of the energy industry and includes:

- Feasibility / Conceptual Studies
- Front End Engineering Design (FEED)
- Detailed Engineering Design (DED)
- Procurement and Logistics Services
- Fabrication/Construction Support
- Transportation and Installation
- Hook-Up and Commissioning
- Asset Integrity and Project Management.

We have developed our capacity to provide EPCI services; our vibrant team of truly talented employees have relevant and extensive experience. We are able to deliver work in conformity to global standards as our Quality, Health, Safety and Environment Management System are ISO-9001.2008 and OHSAS 18001:2007 certified. In addition, PES's Business Management System is designed to work closely with its clients and partners' HSE and Quality Assurance systems.

BRADE PES has a goal to be the best EPCI company, providing best-in-class services to the energy industry. In each project, we uphold our mission of: "global expertise, local execution", a mission we take seriously as we seek to localise our operations wherever that may be.

Our strong point is in innovations. We believe in applying innovative solutions in tackling everyday projects. Solutions that are clean, sustainable and cost-effective. This strategy is fueled by highly skilled, and competent technical leadership, safety culture, integrity, commitment and most importantly, our passion do things excellently each time.
